3 Sectors defined in Business Sector Master however in Industry Type Master instead of these 3 master some new master is reflecting.

Region Master

+ ADD

Search...

Region id	Region Name	Region Description	
2	Europe	Europe	<div><div></div><div></div></div>
4	Asia	Asia	<div><div></div><div></div></div>

When we delete Region master which has Child in Sub-Region the Application should not allow to do this. It should first ask either to Delete Child or Edit Child filed first

Sub Region Master

+ ADD

Search...
